

Champion

Biodiversity & Wine Initiative

The Biodiversity & Wine Initiative (BWI) is a pioneering conservation partnership with the South African wine industry.

“BWI Champions” are exemplary wine producers who have made a commitment to conserving our unique Cape winelands, with at least 10% of their farm committed to conservation, whilst implementing environmentally responsible management practices both within their cellars and on the farm. In addition, these producers or growers have fulfilled the stringent BWI Member criteria, established and audited by the BWI committee.

This certificate is awarded to

Delheim

.....
in recognition of their commitment to conserve
the biodiversity of the Cape Floral Kingdom for future generations.
